Installing the Module.

The module installation is simple, follow these steps:

1. Unzip the ZIP file you purchased and you have a folder called "productextratabs"
2. Connect to your FTP client to your server and place the unzipped folder in the directory / modules / your PrestaShop store, leaving the module in /modules/productextratabs/
3. Go to the back office of your store and login as administrator.
4. Go to the "Modules" tab and look under the "Additional Front-End", the module under the name "ProductExtraTabs"
5. Activate the module.

EXTRA NOTES:

✓ To configure the module, click on "Configure" and may make any changes that need.

CONFIGURE

The module is easy to configure and can be up and running almost instantly.

Login to your Back-Office, and go to settings tab "Modules"

CREATE NEW TABS

In the Control Panel (of this module), you have the following configuration:

☑ **Name of tab:** Enter here the name of the new tab is created. This name is what yours customers see in the store.

☑ **Active:** This option allows the tab visible. Mark the red cross (✖) for hide or the green check (✔) for make visible to your customers.

☑ **Update:** When you complete the field "Name of tab" and decide the status of "Active", click *Update* and the new tab is created/modified.

At the bottom, you can view a list of all tabs created. You can edit or delete according to your requirements.

CUSTOMIZING YOUR CONTENT TABS.

After you create tabs in the section "Settings content tabs" you can add the content you want.

Remember you can add content filtering categories or filtering by product.

EXAMPLE OF PROCEDURE:

1) **Tab** is a drop-down list where you can select a tab from which you created earlier.
2) In the **Categories** drop-down list you can find all the categories we have, and to choose one to shorten the results of the drop-down list called "Products". With this, you can quickly find the item you wish to add a new tab. But, if you select "All categories" and don't select any product in the next option, this tab will be for all the items of all categories; and if you select one category but none specific product, the tab will be for all items of that category.
3) **Products** drop-down list you can specify "*All Products*" to be visible on all products in that category or you can choose a particular product in the category you choose previously.
4) In the **Content** section has a full text editor to add text formats, images, animations and all HTML content you want. You can switch between languages with the flag located in the upper right corner.
5) Click on the **Update** button to save your changes and display the content you just created.

REMOVE OR EDIT CONTENT CREATED ON TABS.

To delete the contents of a tab that was assigned, simply click the "Remove" button for the list that is shown in the bottom panel of the module.

ID	Tab	Product	Category	Action
34	Shipping	All products	All categories	
35	Specifications	Bikini	All categories	
37	Video	Bikini	All categories	
38	Other tab	All products	All categories	

If you simply want to edit the content, use the other button labeled "Edit"
